DECLARATION OF RAW MATERIAL IDENTITY

To Whom It May Concern,

We [REDACTED] Kyoto, Japan, hereby confirm that the raw material used for the Ceremonial Matcha delivered to our customer in Germany in January 2026 is the same raw material as that represented by the sample tested in the following Eurofins laboratory report:

Laboratory: Eurofins Dr. Specht International GmbH, Germany

Report No.: AR-347-2026-00046270-01

Sample Code: 347-2026-00046270

Client Sample Code: 26-172

Product: Organic Uji Matcha [REDACTED]

Lot No.: 2026-06-30

Quantity represented: 2,000 kg

Report Date: July 9, 2026

The pesticide analyses performed by Eurofins confirmed that the screened pesticides were below the respective reporting limits. The analytical results were assessed by Eurofins as being in accordance with the requirements of Regulation (EC) No 396/2005 concerning maximum residue levels of pesticides in or on food and feed.

We hereby confirm that the above-mentioned laboratory report is applicable to the raw material used for the Ceremonial Matcha delivered to our customer in Germany in January 2026.

This declaration is issued by [REDACTED] to confirm the identity and traceability of the raw material concerned.

Sincerely,

[REDACTED]
